SPECIFICATIONS:

Renovated in 2017/2018 (shower boxes, top marine toilets with selenoid, stern thruster, new soundless generator, saloon leather etc...) Kapetan Kosmas is a wooden gulet registered as professional sailing boat by the Greek Authorities.

She is allowed to sail with winds of 6 Beaufort and stronger whereas other professional boats up to 83 feet are not (but we avoid this situation if possible!). And the sails are not here just for decoration ;-)

Kapetan Kosmas has around 200 square meters sails. There is a tender with Yamaha outboard engine, autopilot, 2 VHF, 2 GPS and the electronic standard equipment. There is always 220AC for charge any telephone or other items like cameras or MP3 players and a WIFI/3G connection free for email use (not to download movies ;-).

There is a paddle and kayak on board, snorkeling equipment, some fishing lines, and the possibility to connect your MP3 player to the yacht stereo. The bar is open for basic beverages (refreshment or beers) and you can also bring and drink your bottles without extra-charge. There is a large sunbathing area with sun beds... Bed linen and hand towels provided - please bring your own beach towel.

Everything to enjoy a comfortable cruise with also very good food - breakfast and one lunch or dinner on board!

Kapetan Kosmas Interior Plan. The SUP3 cabin has a 160cm wide bed + one down 170cm long + one adult bunk bed.
